Yhteys puhelimeen subscriptions work at the Finnish price in the EU/EEA area. In addition, calls from Finland to Sweden, Norway, Estonia, Latvia and Lithuania at domestic prices. Prices for calls and messages are for normally priced Finnish phone numbers, not service or company numbers. Messages include normally priced domestic messages and multimedia messages. Calls exceeding the package maximum cost and standard local network rate 0,091 €/starting minute and corresponding messages cost 0,091 € each. Sending a text message to an international number 0,29 €/message. When you have used up the EU/EEA data volume, you can continue surfing at 1,02 €/day. The price includes 1,0 GB/day in the EU/EEA area. When you have used up the data volume included in the day price, you can continue surfing without any extra costs at the basic network speed (128 kbit/s) until the beginning of the next day, when the data transmission rate will be raised back to normal. Standard local network rate for subscriptions with pay as you go pricing is 0,071 €/starting minute. Mobile call charge (mcc) (per each starting min) 0,18 €. To check the other prices applicable to your subscription, visit telia.fi

Ranges of speed variation

Data transmission rate 0.5 Mbit/s

- The range of variation for incoming traffic is 0.4–0.5 Mbit/s in the 3G network and 0.4–0.5 Mbit/s in the 4G network.

Data transmission rate 10 Mbit/s

- The range of variation for incoming traffic is 0.4–10Mbit/s in the 3G network and 4–10 Mbit/s in the 4G network.

Data transmission rate 100 Mbit/s

- The range of variation for incoming traffic is 0.4–40 Mbit/s in the 3G network and 10–100 Mbit/s in the 4G network.

Data transmission rate 150 Mbit/s

- The range of variation for incoming traffic is 0.4–40 Mbit/s in the 3G network and 10–150 Mbit/s in the 4G network.

Data transmission rate 200 Mbit/s

- The range of variation for incoming traffic 0.4–40 Mbit/s in the 3G network, 10–200 Mbit/s in the 4G network and 10–200 Mbit/s in the 5G network.

Data transmission rate 300 Mbit/s

- The range of variation for incoming traffic is 0.4–40 Mbit/s in the 3G network and 10–300 Mbit/s in the 4G network.
